

Eric Burtchett Memorial Scholarship Fund Scholarship Application

In today's world, many students face pressure to pursue traditional degrees rather than trade school, despite the many opportunities in the trades. Students interested in hands-on service careers, such as welding, electrical, woodworking, plumbing, and more should be encouraged.

This scholarship aims to support high school seniors and current trade school students who are interested in pursuing careers in the trades. ***Montana Residents ONLY, must be attending a school in Montana.*
